**Sarasota-Bradenton
Sets New Record**

Sarasota-Bradenton International Airport set a record for passenger traffic in May following a spring season when several new flights took off for the first time.

The airport welcomed 161,435 passengers last month, a 39.9% increase from the same month a year before.

Year-to-date passenger traffic at Sarasota-Bradenton is also up 38%, according to the airport.

The record-setting traffic makes sense, considering Sarasota-Bradenton has added two new carriers, 23 new routes and 18 new destinations in the past year and a half.

Introducing edge:

online marketing courses
for aviation professionals.

Something our clients have told us over the years is that while there are a lot of marketing courses and training opportunities, there aren't many that are focused on the aviation world.

We wanted to change that.

So, we created Edge. Edge is a unique online learning experience for aviation professionals that includes videos, worksheets and live interaction with us and fellow classmates.

Whether you're a veteran airport marketer, new to the aviation world, new to marketing, or somewhere in-between, you can take your marketing game to the next level with Edge.
