**Richmond International Airport Achieves  
GBAC STAR Facility Accreditation**

Richmond International Airport (RIC) announced that it achieved Global Biorisk Advisory Council (GBAC) STAR accreditation, the gold standard for prepared facilities. Under the guidance of GBAC, a Division of ISSA, the worldwide cleaning industry association, RIC has implemented the most stringent protocols for cleaning, disinfection, and infectious disease prevention in its facilities.

“The GBAC STAR Facility accreditation program provides third-party validation of our Building Services team’s cleaning, disinfection, and infection prevention protocols and procedures,” said Perry J. Miller, A.A.E., I.A.P., president and CEO of the Capital Region Airport Commission. “While we are happy to be a leader among Virginia facilities, becoming the first and only airport in the Commonwealth to earn such accreditation was not our aim. Our single motivation for achieving this certification was to do all we could to ensure passenger safety. We want people to know that it is safe to fly out of RIC.”

## Montgomery Regional **Airport** Solidifies Rental Car Concessionaire Partnerships

### Five-Year Agreements Finalized with Rental Car Companies

(Montgomery, AL) – The Montgomery Airport Authority has taken steps to further strengthen relationships with a key segment of its business. The board has executed new, five-year agreements with the rental car companies leasing spaces on the airport property.

In this latest move toward achievement of strategic goals, airport leaders have negotiated competitive terms with rental partners to offer more dedicated spaces for rental car parking. Rental companies will provide additional vehicles, upgraded rental class options, more selections of brands and models for travelers, as well as an increase in non-aeronautical revenue to the airport.

The airport unveiled enhancements to the rental car area in November 2020, after the board approved \$85,000 to add branding, graphic and wayfinding signage, and illuminated, solar-powered markers.

Executive Airport Director Marshall J. Taggart, Jr. noted, “An airport is only as strong as its relationships with its concessionaires. MGM’s rental car companies are important partners in delivering exceptional service, with the variety and affordable pricing that our passengers and local customers expect. We have enjoyed our longstanding engagement with these global rental giants, and with these new agreements, customers can continue to count on the brands they know, trust and love.”

Current rental car concessionaires will remain on-site at MGM through 2026. This includes: Enterprise brands: Enterprise, Alamo, and National; Hertz brands: Hertz, Dollar and Thrifty; and Avis brands: Avis and Budget.

## **American Airlines Relaunches Non-Stop Flights to Washington, D.C.** Same-Day Service to Reagan National Airport Resumes April 4

(Montgomery, AL) – On Sunday, April 4, 2021, American Airlines will resume non-stop flights from Montgomery Regional Airport (MGM) to Reagan National Airport (DCA) in Washington, D.C.

The service, which began in January 2020, was suspended at the start of the COVID-19 pandemic when air travel drastically dropped across the nation. Since that time, air traffic has rebounded at MGM as business and leisure travel increase.

"The convenience of a day trip makes the MGM-to-DCA flight schedule a customer favorite. Passengers can leave early morning and return to Montgomery in time to put the kids to bed," said Marshall J. Taggart, Jr., Executive Airport Director.

"Our customers have consistently inquired about the return of the non-stop flight to Washington, D.C., and we are so pleased that American Airlines has restored this service."

American Airlines also will continue to offer three daily flights to Charlotte Douglas International Airport (CLT) and Dallas Fort Worth International Airport (DFW).

Same-day flights to DCA are available for purchase at aa.com.

## Hanson Professional Services Acquires Amherst Consulting Company, LLC

MAITLAND, Fla. — Hanson Professional Services Inc. has acquired Amherst Consulting Co. LLC, a full-service engineering consulting firm in Maitland that focuses on aviation planning, programming, design and construction services.

"By adding Amherst, we can expand our design, construction-phase services and innovative project delivery capabilities for aviation clients in and beyond Florida," said Sergio "Satch" Pecori, P.E., Hanson's chairman and CEO. The acquisition, which was effective March 16, is part of Hanson's strategic expansion in Florida.

"This is a very important day for our aviation market and particularly for our brand and project capabilities in Florida. We warmly welcome the Amherst group to the Hanson team," said Chip Snowden, AAE, a senior vice president and the aviation market principal at Hanson.

"We're happy to become part of Hanson and excited about what this venture brings to our collective client base," said Todd Zimmerman, P.E., owner and founder of Amherst, which was established in 2002. Zimmerman will be the vice president of innovative project delivery for Hanson's aviation market.

Hanson is a national, employee-owned consulting firm providing engineering, planning and allied services.

The Orlando regional office is located at 720 N. Maitland Ave., Suite 102, Maitland, FL 32751. The office may be reached by phone at (407) 622-2050.

## St. Pete-Clearwater International Airport (PIE) Sets Its Sights On The Stars With New Marketing Partnership

As part of a new marketing initiative, St. Pete-Clearwater International Airport (PIE) inked a partnership with award-winning firm Starmark as Agency of Record for marketing. The move signals a bolder marketing approach for one of Florida's Gulf Coast's most attractive travel destinations, using its easy access to Clearwater, St. Petersburg and Tampa to put PIE on the menu for more travelers.

This is a prime moment for ambition. The airport, which recently completed extensive renovations and infrastructure investments, contributes over \$1.04 billion in economic activity each year. And, St. Pete Beach was named TripAdvisor's #1 beach in the U.S. for 2021, following Clearwater Beach's recent years as #1! "We found in Starmark the type of high-caliber marketing partner we need to help propel PIE to the next level. With our latest terminal renovations, new parking, updated Customs facility, and new shops and restaurants, we're ready to welcome even more travelers back to PIE and the Tampa Bay area," stated Airport Director Tom Jewsbury.

Starmark is no stranger to amplifying excitement for a destination. The agency has won more Visit Florida Flagler Awards than any other company and has also spearheaded the development of a more welcoming international identity for Fort Lauderdale. Its efforts on the east side of the state included significantly growing business for Fort Lauderdale-Hollywood International Airport, as well as rebranding the international hub to the more traveler-friendly moniker FLL. "We love the energy and excitement from our new friends at St. Pete-Clearwater International Airport," says Jacqui Hartnett, President of Starmark. "Our team sees great things ahead for this partnership."

PIE and Starmark plan to take a unique approach to their marketing planning. They'll collaborate closely, using Agile Methodology, to create a comprehensive roadmap for all marketing activities. The goal is to tap all the expertise of social media, creative team members, web developers and strategists from the very start of the project to build an efficient, integrated plan.

Starmark is one of only a few hundred U.S. marketing agencies that guides all of its work using Agile principles and was featured in the Wall Street Journal for its unique implementation. According to Jacqui, "It's an approach that creates open communication and fosters high-trust relationships that are built for the long-haul."

## **Memphis-Shelby County Airport Authority Releases Updated Strategic Overview**

MEMPHIS, TENN. (April 7, 2021) – The Memphis-Shelby County Airport Authority (MSCAA) has updated its Strategic Overview, a focused, comprehensive plan that outlines the organization's goals between 2021-2025. The plan will act as a road map for Memphis International Airport (MEM) and MSCAA's two general aviation airports for the next five years, ensuring improvement across all operational facets. The newest update reflects the impact of the COVID-19 pandemic on MSCAA's short-, medium- and long-term goals.

The plan provides overviews of 10 different areas: Physical/Terminal; Environment; Properties/Cargo; Airfield; Marketing; Communications & Customer Relations; Air Service; Business Model/Finance; Human Capital Management; General Aviation; and Information Technology and Innovation. These overviews include one-, three- and five-year goals. The Strategic Overview can be found at <http://www.flymemphis.com/strategic-overview>.

While this is a five-year plan, the current iteration of the Strategic Overview primarily features timelines that are in the one- to three-year window. Additional five-year goals will be added after MSCAA Master Plan is updated later this year. The Master Plan will establish priorities for long-term construction projects for MEM, General DeWitt Spain, and Charles W. Baker airports. A more comprehensive revision of the Strategic Overview will be released in early 2022.

"The COVID-19 pandemic changed everything for the world, and of course altered MSCAA's strategic goals," said Scott A. Brockman, MSCAA President and CEO. "Our staff worked diligently to address the challenges of the coronavirus, and at the same time move our airport system, its projects and operations forward. This update identifies both broad and specific goals across the major areas of our operations."

Highlights of the updated plan include:

- Completion of several major construction projects to upgrade and modernize MEM, including the modernized Concourse B and new consolidated de-icing facility.
- Completion of the Master Plan Update, which will provide a foundation for future projects which could include modernization of the ticketing and baggage areas, additional parking structures and implementation of new technology.
- Air service goals such as restoring flights and frequencies that were suspended during the pandemic, as well as continued pursuit of additional West Coast destinations.
- Pursuing the development of a travel plaza near MEM's cell phone lot, including convenience store amenities, public restrooms, and vehicle fueling.
- Creation of a new parking reservation and online booking system.

# McFarland Johnson Proudly Celebrates 75th Anniversary!

**Binghamton, NY – April 7, 2021** - McFarland Johnson (MJ), a 100% employee-owned planning, engineering, and construction services firm, is pleased to announce 75 years of amazing people, places & projects.

MJ was established from humble beginnings in the home of William McFarland in Binghamton, NY in 1946. MJ has since expanded to 16 offices that spread across the U.S. serving a vast variety of clients and communities. Throughout MJ's history, there has been one thing that has remained the same. From private ownership to now an Employee-Owned firm, we have always been committed to the successful completion and innovation of every project and every client relationship.

"What began as a small consulting firm in NY now provides a full continuum of innovative solutions to clients throughout the Country. We are extremely proud of the work that McFarland Johnson is doing today. Our dedication to excellence, coupled with our smart and passionate employees, serves as a strong foundation for our next 75 years." said Chad Nixon, President and Chairman of the Board of McFarland Johnson.

A 75th anniversary is a significant milestone that few companies achieve. This does not come by chance, but from challenging the process and procedures. Every single project has the potential for innovation which creates opportunities for future projects and clients. As a 100% Employee-Owned ESOP, the extra effort that gets poured into every project yields a result that is shared by all. This promotes a culture of passion to go above and beyond the expected responsiveness and technical ability for each project.

MJ is using the last 75 years of experience to build our future. We remain committed to building lasting relationships, serving our clients best interests, and continuing to innovate and learn, bringing our clients to grow alongside us. As MJ celebrates the 75 years of our vision and mission throughout 2021, we will be sharing reflections, articles, insights, and glimpses over our history. Please visit our 75th Anniversary dedicated web page at <https://www.mjinc.com/mjweb/anniversary> for more information on our rich history.

### Haskell Announces Promotion of Greg Akers to Vice President of Aviation & Aerospace Manufacturing Division

**JACKSONVILLE, Fla. (April 2, 2021)** – Haskell is pleased to announce that Greg Akers, Division Leader of Aviation & Aerospace Manufacturing, has been promoted to Vice President.

Greg leads the Aviation & Aerospace Manufacturing Division in delivering integrated design-build facilities for clients across the aviation, aerospace, defense and advanced manufacturing markets. He is responsible for profit and loss, operations, development of opportunities, project partnerships, teaming and project execution. He maintains a high level of client interaction throughout the project lifecycle to ensure a world-class customer experience.

Greg joined Haskell in 1999, after earning a Bachelor of Architecture degree from the University of Miami and a Master of Building Construction degree from the University of Florida. He has successfully executed projects in the Aviation & Aerospace, Manufacturing & Distribution, and Food & Beverage market sectors for numerous large international and Fortune 500 companies during his Haskell tenure.

“Greg has had incredible success in leading project teams in support of a diverse client-base across the aviation, aerospace and industrial manufacturing markets”, said Pete Kinsley, President of Haskell’s Infrastructure & Transportation Group. “I’m proud to announce and celebrate his promotion to Vice President.”

## BLUE GRASS AIRPORT PARTNERS WITH BIG ASS FANS ON NEW CLEAN AIR SYSTEM FAN IN TERMINAL

March 29, 2021 -- Blue Grass Airport is proud to join the Big Ass Fans Clean Air System family. The airport joins fellow Clean Air System customers (Toyota, Tiffany & Co., Orangetheory Fitness, lululemon, Carnegie Mellon University) to install the company's air disinfection technology to ensure a safer, healthier space for staff and patrons alike.

Proven to significantly and safely reduce aerosolized SARS-CoV-2 from the air and mitigate infection risk, Big Ass Fans' independently tested system delivers better air quality to occupied spaces with a focus on air disinfection and deactivation of pathogens, viruses, bacteria, and other harmful particulates.

"This latest Big Ass Fans product is a welcome addition to our terminal facility," said Eric Frankl, executive director at Blue Grass Airport. "Given the continuing global pandemic, we want to assure our passengers that we are doing what we can to provide a safe and clean environment. This fan, with its latest disinfecting technology, makes that possible. We are so fortunate and proud to have a company as innovative as Big Ass Fans in our own backyard."

"[Clean Air System] can effectively deactivate SARS-CoV-2 at a rate significant enough to implement in any facility and provide a valuable level of sterilization and decontamination to the environment in which it is implemented." - Innovative BioAnalysis report (Biosafety Level 3 laboratory)

"Alongside Big Ass Fans' extensive internal research and development of Clean Air System, our work with independent labs allows us to quantify and verify the reduction of harmful viruses, including SARS-CoV-2, and other pathogens," said Lennie Rhoades, CEO Big Ass Fans. "These third-party results give our customers confidence Clean Air System will keep their people and businesses safer, and seeing it serve our immediate community and those who visit Lexington is extra special."
