## SEC-AAAE Journal

Sept. - Oct. 2016

### AVL SUMMER PASSENGER NUMBERS REACH ALL-TIME HIGH

#### *AIR SERVICE IS STRONG AND GROWING*

Asheville Regional Airport served more passengers in June through September 2016 than in any other summer in its history. June, July and August numbers were up year/year by 2.2%, 4.8% and 6.7% respectively. And in what is normally a "shoulder season" month with dips in passenger numbers compared to previous summer months, this September, a 16% increase was documented year/year, with 77,428 total passengers served.

"Air service at AVL is strong, and growing," said Lew Bleiweis, A.A.E. executive director. "All four airlines at AVL - Allegiant, American, Delta and United - have a solid number of seats for sale in our market, they offer excellent connectivity to the world, and passengers are buying tickets."

Ticket sales are up for all airlines at AVL. Additionally, Allegiant is continuing to grow in the western North Carolina market, with a new non-stop service to the D.C. area and more frequency of flights to destinations in Florida added this summer. A new non-stop to the New York City market will start on November 17. Looking ahead, Delta and United also plan increases in seats for sale to and from AVL in October through December, compared to the same period last year, with United boosting frequencies to both Chicago O'Hare International and Newark Liberty International.

# Exceed Your Own Expectations!

## The Southeast Chapter of the AAE

Are you a GOAL DIGGER?  
Let the SEC help you

### WHO SHOULD ATTEND:

- > Aviation Professionals seeking to move up within the airport ranks
- > Mid-Level Airport Professionals
- > Corporate/Consultant Partners
- > Professionals new to the Aviation Industry

### WHEN:

Thursday, December 8, 2016

9:30 am - 3:30 pm

9:30 am - Coffee

10 am - Program starts

Includes presentations and lunch courtesy of Northwest Arkansas Regional Airport.

Sponsored by the Southeast Chapter's Member Initiative Program.

### COST:

\$75 for SEC Members

\$125 for non-SEC Members

### WHAT IS THIS MEETING ABOUT?

The Southeast Chapter of AAE is pleased to offer instructional and energizing workshops for attendees to learn from the industry's best:

- > Tips to become a LEADER
- > Hear SUCCESS and war stories
- > HINTS to expand your career

### WHERE:

Your Host this Workshop:  
Northwest Arkansas Regional Airport

# SOUTHWEST FLORIDA INTERNATIONAL AIRPORT ANNOUNCES RSW REWARDS FREQUENT PARKER PROGRAM

FORT MYERS, Fla. (Oct. 13, 2016) – Southwest Florida International Airport (RSW) has launched the RSW Rewards Frequent Parker Program, which is designed to reward loyal on-airport parking customers who use the long- or short-term lots at RSW.

“This program is aimed primarily at business and frequent travelers in Southwest Florida to provide additional value, while emphasizing that on-airport parking lots are truly the most convenient and cost-effective options when you travel through Southwest Florida International Airport,” said Robert M. Ball, A.A.E., executive director of the Lee County Port Authority.

The RSW Rewards Frequent Parker Program is fully automated and points, which are earned whenever a customer parks on-site at Southwest Florida International Airport, can be redeemed for free parking. There are no blackout dates when using the free days of parking. Membership in the RSW Rewards Program is free and requires a credit card when signing up, which is securely linked to an Automated Parking Pass. For traveler convenience, a parking ticket is not needed when entering the long- or short-term lots. Members will simply enter and exit the long- or short-term parking facilities utilizing their Automated Parking Pass that is read via radio signal in the designated lanes. Members will be automatically charged for the length of their parking stay and points will be posted to their account. For more information and to sign up for RSW Rewards, please visit [www.rswrewards.com](http://www.rswrewards.com).

Southwest Florida International Airport served nearly 8.4 million passengers in 2015 and is one of the top 50 U.S. airports for passenger traffic. No ad valorem (property) taxes are used for airport operation or construction. For more information, visit [www.flylcpa.com](http://www.flylcpa.com).

# Average airfares drop for 15th consecutive quarter at Memphis International Airport

Wednesday, October 26, 2016

MEMPHIS, Tenn. (October 25, 2016) – Year-over-year average airfares at Memphis International Airport (MEM) have dropped for the 15th consecutive quarter, according to the Department of Transportation (DOT). The DOT’s second quarter 2016 average airfare report reflects an average airfare of \$390.24 at MEM, a decline of \$28.46 compared to 2nd quarter 2015.

The average airfare at MEM has now dropped by more than \$156 (inflation adjusted) since its peak in 2012.

Lower airfares have helped MEM to increase its origin and destination (O&D) passenger totals by eight percent since 2015, which reflects more than 400 additional passengers per day each way. O&D passengers increased to 5,677 passengers per day each way compared to 5,280 in 2015. During its hub era, as little as 20 percent of the passenger traffic at MEM was O&D, with the vast majority of passengers using Memphis as a connecting point to get to their eventual destination. Now, 99 percent of that traffic is O&D.

Pace Cooper, Chairman of the Board of Commissioners of the Memphis-Shelby County Airport Authority, said “We’re thrilled that more O&D passengers are departing from MEM, and lower airfares are helping to drive that growth. These positive trends are a combination of new airlines, added flights from existing carriers, and up-gauging to larger planes to key destinations.”

Additional information is available at <http://www.transtats.bts.gov/AverageFare/>

## New Terminal Building Dedicated at Concord Regional Airport

CONCORD – City of Concord Officials along with invited guests including, representatives from Cabarrus County Convention and Visitors Bureau, the Federal Aviation Administration (FAA), and the Transportation Security Administration (TSA) gathered in the new Terminal Building at Concord Regional, for the grand opening ribbon cutting event Thursday.

The new complex, which officially opens on Wednesday October 5 is located at the south end of the airfield at 7425 Zephyr Place. The new complex includes a 25,000 square foot terminal building and 700 space parking deck.

Mayor Scott Padgett noted that the opening of the new complex will begin a new chapter of this airport's relatively short but impressive history. He emphasized the impact that the new terminal building will have on the City of Concord, Cabarrus County, and the region as a whole. "This is a great day for our community," said Padgett. "This first class complex will result is a better flying experience for both general aviation and commercial customers."

Rick Cloutier, Aviation Director noted that the new terminal building will accommodate up to 30 flights a week.

The facility was created with participation from the FAA and TSA, the facility incorporates all of the latest practices for passenger safety and security. The 25,000 square foot building has been designed to the highest level of traveler comfort ensuring the journey from the parking lot to the airplane is quick, efficient, and stress free. The new facility features a spacious ticketing lobby, comfortable passenger holdroom with modern amenities, and Covered pathway to aircraft.

The construction was planned and executed on a tight 18-month schedule after federal funding for the terminal became available in 2015. 90 percent of the \$6.5 million terminal project cost was paid with federal funding. The remainder was split by the City and NCDOT (local portion approximately \$325,000). The project also includes a 700-space parking deck. The City is financing the cost of the \$5.7 million project, and will charge parking fees to generate revenue.

Allegiant Air began commercial flight service in the Concord Regional Airport in December 2013 with twice a week service to Orlando, Florida. Currently, Allegiant offers flights from Concord Regional Airport to four Florida destinations: Orlando Sanford International Airport; St. Petersburg-Clearwater International Airport; Fort Myers, and Ft. Lauderdale International Airport. In November, Allegiant Air will provide services to New Orleans.
